(54) FLAME-RETARDED BASE AND PREPREG

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a flame-retarded base and prepreg having an excellent flame retardancy, and capable of being used as an electronic part and a circuit board having good electrical characteristics at a high frequency.

SOLUTION: The flame-retarded base and the prepreg comprise dispersing a flame retardant in a polyvinyl benzyl ether compound.

LEGAL STATUS

[Date of request for examination] 08.08.2003

[Date of sending the examiner's decision of rejection] 10.08.2004

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
